

A Galaxy-Wide alert to our XWA Pilots!

Since the X-Wing Alliance (XWA) was formed in 2024, our goal has been to maintain and refine the game. Keeping the community moving forward. Over the last few years, we have continued to develop the X-Wing Miniatures Game, and we have also created an Organized Play (OP) structure that has kept the in-person X-Wing community strong. We work closely with the community to provide the best overall experience. Our first Organized Play season was a big hit, but the community let us know that the jump in competitiveness between the two levels wasn't quite right. With that information, we adjusted our second Organized Play season. So far, that has also been a huge success, and we have already noticed better overall attendance at each tier of event, which is fantastic! However, we know there is still work to be done and room for further growth in the XWA Organized Play structure.

XWA's first World Championship was a success, with over 100 players attending, including some international players, though not many. We recognize that Europeans have always represented a large portion of the community both in quality and number of players. X-Wing has had a longer standard history of worldwide competitive coverage, so we have come together to navigate a path forward for our European players to be able to show off their skills and be recognized at a truly high competitive level.

With that said, the XWA is excited to introduce a new event tier in the XWA Organized Play structure called Continental Championship. This new Tier is ranked above SOs, with our first event of this kind being the European Continental Championship in Warsaw, Poland, June 11th-13th next year. We expect this to be a highly competitive event with top-tier players, and a fantastic prize structure similar to the one you will find at the World Championship. Additionally, the top 4 Players from the event will all receive round 1 byes for the World Championship. We know we will see X-wing players from all over the world attend and enjoy not only the great Polish community, but also the fantastic sites the country has to offer.

We asked Alfred Sosgórník, the Polish community representative who helped make this event possible, what this new exciting event meant to them, and he had this to say:

"For Europe, and for Poland in particular, the Continental is a true milestone in X-Wing history. For years, we've wanted as many players from our community as possible to compete at a premier level event. Until now, that meant a trip across the ocean, so having the very first one take place right here in Warsaw is incredibly exciting for us. The Continental gives European players the chance to experience Worlds-level excitement and opens a new chapter for the European scene. We can't wait to welcome you all to Warsaw. Get ready for an absolute blast!"

Along with Alfred, we want to thank other community members who reached out to encourage us to create this event, and everyone else who helped make this idea a reality.

Stay tuned for more updates in the coming months.
